OBJECTIVE

Full Stack Developer with **1.5** years of experience skilled in **MongoDB, React JS, Node JS, Express JS, AWS EC2**, and **chatbot** development. Proficient in fintech and media streaming platforms. Strong collaborator, ensuring seamless integration for enhanced user experiences on both the **front-end** and **back-end**.

SKILLS

Technical Skills	MongoDB, React.js, CSS/SCSS/SASS, Node.js, MERN Stack, Framer Motion, API Integration, JavaScript, Next.js, SQL, AWS EC2, Figma, TypeScript, S3 Bucket, Chatbot Development, Graph APIs.
Soft Skills	Communication, Adaptability, Teamwork, Leadership, Continuous learning.

EXPERIENCE

Full Stack Developer TechOn Ventures	Nov 2023 - Present <i>Karachi, Sindh</i>
--	---

- Developed front-end and back-end for multiple fintech websites, ensuring seamless integration.
- Successfully integrated the entire payment platform seamlessly into an Instagram chatbot, enhancing user convenience and enabling effortless transactions.
- Managed S3 buckets for efficient storage and retrieval of financial data.
- Deployed applications to AWS EC2, optimizing configurations for high availability.

Front End Engineer TechOn Ventures	Apr 2023 - Nov 2023 <i>Karachi, Sindh</i>
--	--

- Successfully integrated complex APIs into fintech and video browsing software, enhancing their capabilities and user experience.
- Developed and designed an intuitive video-playing page on the platform AFO Media, working on its user interface and seamlessly integrating APIs

REACT JS Intern TechOn Ventures	Feb 2023 - Mar 2023 <i>Karachi, Sindh</i>
---	--

- Transformed a mockup of a fintech dashboard into a React JS application.

MERN Stack Intern Folio3	Jun 2021 - Sep 2021 <i>Karachi, Sindh</i>
------------------------------------	--

- Facilitated my team in designing and developing user interfaces using Figma and React JS for a web application.
- Collaborated with Backend developer and gained experience with the MongoDB, Express, React, and Node stack to build a web application that allows users to make CRUD operations on created Notes.

PROJECTS

[Insta-Pay](#)

- Managed server-side functionalities, ensuring the robust handling of transactional data and optimizing system performance.
- Collaborated with the frontend team to integrate backend processes seamlessly, enabling real-time data flow and enhancing the user experience.
- Integrated secure S3 bucket functionality for document uploads.

- Implemented QR code generation for user digital wallets, enhancing accessibility and facilitating quick transactions.

AFO MEDIA

- AFO Media is a dynamic media streaming platform, and as a ReactJS developer on the project, I spearheaded the seamless integration of complex APIs to optimize user interactions
- Focused on enhancing the video-playing pages and implementing user-friendly interfaces.

INSTAPAY-SWISS (Instagram Chatbot)

- Developed an Instagram chatbot to simplify mobile transactions.
- Integrated the entire payment system into the chatbot interface for seamless transactions on Instagram.

Wa-ONE

- Managed the front end of a money transaction web application with digital wallet functionality. This platform facilitates seamless financial transactions, enhancing user convenience in managing their digital assets.
- Responsible for crafting responsive front-end interfaces, and seamlessly integrating external APIs, leveraging real-time data.
